MSc Finance Analytics graduate who has directly supported a Managing Director through research, meeting preparation, and executive reporting. Experienced coordinating committee meetings, preparing board packs and strategy documents, maintaining action logs, and driving follow-ups across multiple stakeholders. Comfortable managing competing priorities in fast-paced environments and translating complex financial data into clear, actionable insight. Advanced Excel and PowerPoint. Based in London, available immediately.

EDUCATION

Kings College London, London, UK

Sep 2025 – Sep 2026

MSc Finance Analytics – Coursework in corporate finance, financial reporting, statistical modelling, econometrics **Jai**

Hind College, Mumbai, India

March 2022 – March 2025

Bachelor of Commerce – 8.7/10

INVESTMENT AND RESEARCH EXPERIENCE

King's Investment Fund (Student-Led Investment Management) – Team Leader

March 2026 – June 2026

- Coordinated the smooth running of a student-led investment management fund across 8 members by organising committee meetings, preparing meeting packs, and taking minutes to ensure all decisions and actions were captured accurately
- Delivered 12+ investment reports and strategy documents in client-style board paper format, maintaining 100% on-time delivery across all reporting deadlines
- Maintained action logs and project trackers across multiple workstreams, following up with contributors between meetings to ensure no actions were lost
- Built BI/MI dashboards in Excel to monitor portfolio performance, identifying underperforming holdings and recommending rebalancing actions that contributed to benchmark outperformance

Practera Finance Micro Internship (Investment Fund Analysis), London, UK

June 2026 – July 2026

Student Consultant (Research Lead)

- Acted as central point of contact for a senior Managing Director and 8-person team by gathering research requests, liaising with contributors, and ensuring all meeting packs and papers were prepared on a timely basis
- Conducted quantitative analysis across \$77B+ of investment fund data by building a screening framework from scratch, proactively identifying a critical strategic issue that redirected the team's approach
- Prepared executive reports, strategy documents, and presentation materials for direct presentation to the client's Managing Director, translating complex financial data into clear, actionable recommendations
- Maintained documentation, follow-up trackers, and ad hoc process logs across a fast-moving project, ensuring no actions were lost between meetings

OPERATIONAL AND BUSINESS SUPPORT EXPERIENCE

DG Software, Mumbai, India (Internship – Operational Support)

March 2025 – August 2025

- Supported day-to-day investigation and resolution of BAU operational issues across the business, reducing data discrepancies by 30% by restructuring 12 database tables and embedding improved validation processes
- Assessed new business requirements from department heads and worked with relevant business areas to embed changes into BAU operations, improving retrieval efficiency by 25%
- Built BI/MI reporting dashboards used by senior management for operational decision-making, communicating technical outputs clearly to non-technical stakeholders across all levels of the organisation
- Maintained comprehensive documentation covering operational systems, process improvements, and compliance with agreed standards, ensuring continuity for the wider team

ADDITIONAL EXPERIENCE

48-Hours Startup Challenge, Kings College London

November 2025

- Managed competing priorities across multiple stakeholders within a 48-hour deadline, coordinating inputs from 40+ contributors and delivering a finished business case presentation to a panel of mentors
